

COLLEGE ADMISSIONS COUNSELING

A roadmap to the destination, with every cross-border move planned in *advance*.

About a third of our families live outside the United States: in Singapore, Korea, Japan, China, Dubai, Europe and South America. They work with us on the same terms as families in California. What moves is the meeting time.

12+

Countries where our students have enrolled

US and UK

Both application systems, prepared alongside each other

USD

The same packages and the same prices as families here

Ryan Choi with students in Paraguay, 2026.

TIME ZONES AND MEETINGS

- **Meetings are scheduled around the time difference.** Every meeting runs on Zoom. A Friday evening in California is a Saturday morning across much of Asia, so the meeting does not have to come out of a school night. Ryan is flexible about the hour on his side, and a family's morning is usually workable even when it falls in his night.
- **You are welcome at the office.** When a family is in California over a school break, we meet in person at 930 Roosevelt in Irvine instead of on screen.

APPLICATIONS AND PRICING

- **United States and United Kingdom applications.** Ryan Choi knows the UK school system and the UK application well. A student aiming at Oxford builds that application alongside a United States list, not in place of one.
- **The same packages, at the same prices.** Families abroad choose from the same tiers as families in the United States, priced in US dollars. Nothing is marked up for distance.

The next step is a conversation with *Ryan*.

Wherever you are, the planning and the execution are the same. Reply to this email and we will find a time that works on both clocks.
