What the runway *covers*.

Grade 9 • three years out

Three years of meetings, summer planning, and strategic course selection guidance before the first application is due.

Grade 10 • two years out

Two years of the same work, with more room left to build the record than to present it.

Grade 11 • one year out

One year, with the academic and testing plan, the college list, and the Common App all running together.

All four add-on categories (Application, Mentorship, Test Prep, Coaching) layer onto any base package, on schedules of their own.

COMMON QUESTIONS

Q. How do the Competitions programs work?

We pick the competitions that fit your student, manage the timelines, mentor the execution, and make sure the work is submitted.

Q. Does Internship & Research place my student?

No. It is a search program: resume, LinkedIn, and outreach guidance. There is no placement guarantee.

Two things families ask *first*.

Q. How do you count schools?

The UC system counts as 1 school: all nine UC campuses share one application.

Q. Is test planning part of every package?

Yes. Every package runs a testing plan inside the regular meetings: score targets, test-date strategy, and practice milestones, whether or not you add an SAT program.

What comes *next*.

READ THIS OVER

Take it to the family. Mark what fits your student and what does not, and note anything you want to hear more about.

TELL US WHAT FITS

Reply to the email. If you would like us to build options around what we discussed, say so and Ryan puts them together himself.

LAUNCH THE BLUEPRINT

A detailed academic and extracurricular plan for the year ahead, plus a 24/7 student portal with timeline benchmarks and progress tracking.

Pricing and custom package options come after our next conversation.

5

Schools included. List strategy, essays, and supplement support for five schools in every package.

Foundation compounds. Years of strategy applied early beats months of execution applied late.

10+

Direct partnership. A minimum of 10 hours one-on-one with Ryan Choi, by Zoom.

When you're ready, *we're ready*.

Whether you want to know more or you already have a sense of which path fits, one reply is all it takes.
